

# Volunteers Needed!

Ever wondered what happens if a super conductor chip plant has a massive chemical spill infecting the assembly line?

People can die from these chemicals.

At Luther Hospital, we need to practice decontaminating and treating a large number of people so if the real event occurs, we are prepared.

Volunteers are needed to be mock patients!  
8:30 a.m. Friday, June 12

- Meet at Church CVBC at 7:30 a.m.; return at noon
- Permission slip from parents is needed (simple note)
- Must contact Wayne in advance due to limited number of van seats
- Lunch is included in the hospital cafeteria

If you are interested or would like more information, contact  
Trauma Center director Wayne Street by Monday, June 8,  
at [street.jaime@mayo.edu](mailto:street.jaime@mayo.edu) or 838-3073.
